

# ASP<sup>®</sup> FACTS

## FEATURE: Extended Tip

### ADVANTAGE:

Low profile manual expansion of the Talon Baton is made possible by the Extended Tip. The two grip rings of the tip allow an officer to pull the Talon shafts into an extended position. The expansion is both low profile and non-threatening. The tip is field replaceable.

### SPECIFICATION:

- Extended length
- Concentric grip rings

### PERFORMANCE:

The Extended Tip makes possible a low profile, non-threatening extension of Talon Disc Loc shafts.

### SALES STRATEGY:

*Demonstrate how the thumb and forefinger slide from the front collar of the Talon to grasp the Extended Tip. Show how the grip rings of the tip are used to pull the shafts of the baton into a locked position.*
