

ASP[®] FACTS

FEATURE: Interlocking Battery Carriers

ADVANTAGE:

Interconnecting Link[™] Cases provide protective storage, organization and transport of high energy lithium batteries. The translucent carriers can be linked together to accommodate any quantity of power cells.

SPECIFICATION:

- Polypropylene
- Translucent
- Visible cell availability
- Dovetail connection
- Tab lock

PERFORMANCE:

Link Battery Carriers provide compact, convenient storage of lithium power cells. The cases can be interconnected by means of dovetail tracks on each side of the case.

SALES STRATEGY:

Show how lithium batteries are locked into Link Carriers. Demonstrate the interconnecting tracks on each case.
