

ASP FACTS

FEATURE: Overmolded Keys

ADVANTAGE:

The overmolded grip of S2 and Clip Handcuff Keys provide a positive hold and improved key control. The elastomeric surfaces are textured, soft to the touch and produce an improved gripping surface.

SPECIFICATION:

- Elastomeric
- Overmolded onto stainless steel
- Contoured grip
- Textured surface
- Soft touch feel

PERFORMANCE:

The textured contours of overmolded keys provide an improved gripping surface. The soft feel of ASP S2 and Clip Handcuff Keys increase key control.

SALES STRATEGY:

Explain the improved hold of overmolded handcuff keys. Demonstrate the superior key control of S2 and Clip textured grip keys.
